Pilgrim Named Among the Best Fireplace Tools and Accessories for 2024 by The Spruce

Concord, CA - Don't get your hands dirty, get the best tools for the job. This mid-century-inspired stand is compact but mighty, holding four tools (poker, tongs, shovel, and broom) and looking elegant while doing it. It is made from steel with a brass plated finish, so it is an easy way to get a warm-looking tone without using solid brass, also available in a black finish.

Best Splurge: Pilgrim Home & Hearth Mid Century Tool Set

Williams-Sonoma

What We Like

- Tools rest on stand, not the floor
- Small footprint
- Brass or black finish options

The broom has stiff bristles made from corn stalk fiber, and the stand has rubber feet that protect floors from scratches. The tools themselves are 28 inches long, giving you plenty of room to maneuver as you use them. Another nice thing about this stand is that the tools hang over the incorporated tray, so you may be less likely to drop ash and soot directly on your floor or rug as you're working to [maintain your fireplace](#).

Tools or accessories included: Stand, poker, tongs, shovel, and broom |

Material: Steel | **Height:** Stand, 29 inches; tools, 28 inches
